

# Tuberculosis and HIV

## EFFECTIVE AND INTEGRATED TB AND HIV CARE

All people living with **HIV** should have access to:

- Antiretroviral Therapy ◀
- Regular TB screening ◀
- Rapid molecular TB diagnostics and treatment ◀
- TB preventive treatment (if no TB symptoms) ◀

All people who have active **TB** should have access to:

- ▶ TB treatment
- ▶ HIV testing, and, if living with HIV, antiretroviral therapy and co-trimoxazole preventive therapy
- ▶ HIV prevention options
